This summer, the HBCU-HM, in partnership with Hyatt Hotels & Resorts, will offer a customized, interactive, informative program for selected high school students nationwide. These are individuals who are projected to seriously pursue careers in the dynamic field of Hospitality and Tourism Management where the opportunities are WOW (Winning Opportunities Worldwide)!

The overall objective is to expose participants to the dynamic careers that provide unlimited opportunities for those who want to design and implement high quality products and services to guests, in the hotel, lodging and broader hospitality areas which include event planning, casinos, cruise lines, travel agencies and so much more! Student participants will be exposed to the expert tools of marketing, accounting and finance, human resources and investment strategies through service models. The programs will be conducted at the five universities nationwide.

VSU program administrators will select up to 15 high school students to participate from across the state of Virginia. The program will provide “hands-on” experiences so that each participant will be challenged to develop the knowledge, skills and attributes needed to become leaders.

Listed below is the registration form to be filled out. An on campus or phone interview may be required in order to be selected for program participation.

The application deadline will be extended to April 15, 2015.
Summer Hospitality Bridge Program (SHBP)
